Joanie Macdonald has come into our lives at a very pivotal time. When my father was hospitalized we were told by Lions Gate Hospital he was not going to be released into our care without proper help to assist him at home. Joanie told us that my father being a second World War Veteran might possibly be entitled to benefits. My family and my myself certainly were not aware of this. With Joanie's help we applied to Vetern's Affairs and to our amazement were eligible. Over the last two years Joanie has provided my parents with excellent home care help. My father gets bathed, meals are prepared and the house gets a thorough cleaning. Without this help my parents would not be able to remain in there lovely home and I can't bear to think of the alternative. We know that Joanie is just a phone call away and she has filled in for us in a pinch. I would highly recommend her services and found the quality of help she hires to be outstanding!

Thanks So Much For Caring.

Many Blessing

The Hoggarth Family
